

Joint Research Group  
Manuscriptology and Digital Humanities

## Dating the Vedic corpus

In this talk I will discuss what quantitative methods can reveal about the chronology of the Vedic corpus. Starting with a discussion of non-chronological influence factors and methods for detecting them, the presentation moves forward to a Bayesian approach that derives a chronological structure from the development of linguistic features. In addition, I will sketch how recent advances in Natural Language Processing can be applied to this question.

### Dr. Oliver Hellwig

PostDoc researcher at the  
Department of Comparative  
Linguistics, University of Zurich

**Friday, 9<sup>th</sup> February 2024**

**09:15-10:45 Hrs** (CET Germany)

= 01:45-03:15 pm (IST India)

= 5:15-6:45 pm (JST Japan)
